Nest Cam
Wall Mount

Nest Cam Tabletop

# Parts & Tools needed
## Nest Cam Wall Mount

Nest Cam Wall Mount

2x Winged Nuts

Installing Nest Cam Wall Mount

Step 1
With the G logo upright, push the wall mount through the corresponding holes in the fixture.
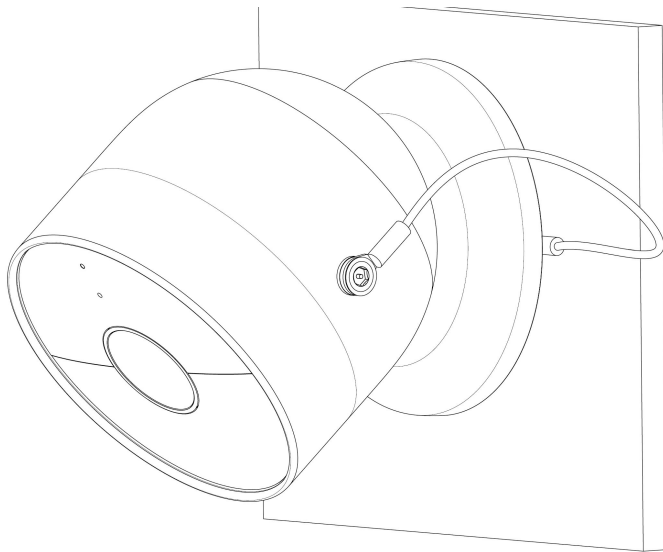

Step 1

Step 2
On the other side of the fixture, thread the provided winged nuts onto the stems to secure Nest Cam in place.

Step 2

Installing Nest Cam Wall Mount

Step 3

Attach Nest Cam to the magnetic wall mount and angle the camera down as shown.

Step 3

Parts & Tools needed
Nest Cam Tabletop

Nest Cam Tabletop

1x Threaded Stem
Optional

1x Knurled Nut
*Optional*

Alcohol Wipe
Not included

Phillips Screwdriver
Optional, not included

Installing Nest Cam Tabletop
Adhesive

**If you're installing Nest Cam Tabletop mechanically, skip to page 10.**

Step 1

Step 1
Use an alcohol wipe to clean the surface where Nest Cam will be placed.

Remove the adhesive liner on the bottom of the tabletop stand.

Step 2

Step 2
Hold the tabletop stand so that the security cable is on the right. Place the device in the desired location and apply pressure to the base. Hold for at least 15 seconds.

Installing Nest Cam Tabletop
Adhesive

Step 3

Step 3

Attach Nest Cam to the base by aligning the pogo pins of the tabletop stand to the bottom of Nest Cam.

Angle Nest Cam so it's upright and facing straight ahead.

**Step 4**

Run the cable into the fixture.
Since Nest Cam is a dummy it does not need to be plugged in to power.

Remove the protective liner from the front of Nest Cam.

# Installing Nest Cam Tabletop
Mechanical

Step 1

Do not remove the adhesive liner when installing Nest Cam mechanically.

Step 1
Use a phillips screwdriver and remove the 2x small screws that are holding the security plate to the bottom of the tabletop stand.

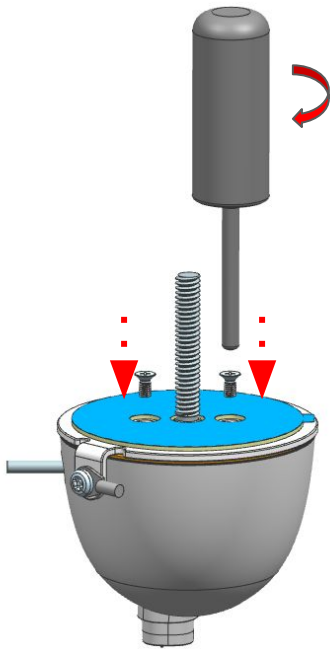

Step 2

Step 2
Insert the threaded rod through the top of the security plate, ensuring it sits flush.

Installing Nest Cam Tabletop
Mechanical

Step 3
Re-attach the 2x small screws that were removed in step 1

Step 3

Step 4
Insert the threaded rod through the fixture and secure underneath using the provided knurled nut.

Step 4
