

# ring Floodlight Wired

## Key Specifications

### Brightness

2000 Lumens Max

### Color Temp

3500K

### Motion Detection

180° radius up to 70 ft distance

### Power

Hardwired (120-240 V)

### Dimensions

178 mm x 212 mm x 184 mm

### Features

4-Way Positionable Motion Detector  
Weather Resistant

The Ring App is required for setup and is compatible with iOS and Android Devices

## Add-ons:

### Ring Bridge

The Ring Bridge is the central point for connecting all Ring Smart Lighting products. It enables smart lighting control from anywhere using the Ring app and lets Ring Smart Lighting products interact with other Ring products for enhanced security.

### Ring Video Doorbell

The Floodlight Wired can be triggered when there is a motion activity at your doorbell, putting light on the subject and making it easier to see.

### Voice Assistant

Control your lights, manage alerts, adjust settings, and use Floodlight Wired as Alexa Routines triggers with a compatible Echo device.

## Frequently Asked Questions

### What happens if I don't have the Ring Bridge?

The Ring Bridge is required to enable smart controls and notifications for Ring Smart Lights, pair Ring Smart Lights together, and connect them to Ring Doorbells, Cameras and select Alexa-enabled devices.

Without the Ring Bridge, Ring Smart Lights will shine as soon as motion is detected or the light is turned on, but you won't be able to customize your settings. You will also not be able to pair your Ring Smart Lights into groups, receive notifications, or connect other Ring Smart Lights to other compatible Ring or Alexa-enabled devices.

### Why do I want a Ring Smart Lighting product versus a Ring Floodlight Cam or Spotlight Cam?

Ring Smart Lighting products offer the ability to add light to your driveway, yard, porch and pathways at an affordable price point as a deterrent for crime at your home. If you already have a camera in those areas, the added light from Ring Smart Lighting products allows you to put more light on the subject to make it easier to identify what is on camera.

### How long do the lighting elements last in this device?

The Smart LED lights in the Floodlight Wired will last for tens of thousands of hours (on the order of 20 years) before burning out.

### Do I need a Ring Protect subscription to use the Ring Floodlight Wired?

No, Ring Smart Lighting provides smart control functionality with or without a Ring Protect Subscription.
