

STRONG™ SIGNATURE SERIES 42U PREMIUM AUDIO VIDEO ENCLOSURE

For a sophisticated equipment storage option, this rack can't be beat. It features top-shelf amenities – like a smoked, tempered glass door – and can be customized to fit almost any application. Capable of holding 2,200 lbs. of equipment, outfitted with smart wire management, and equipped with lockable doors and panels, this premium AV enclosure keeps your equipment and wiring organized, protected and looking its best.

SMOKIN' GOOD LOOKS

A curved, smoked, and tempered glass door gives this AV enclosure a premium look and feel. Plus its tint reduces the intensity of any bright or blinking LEDs, so all you see is a great-looking piece of equipment.

BUILT TOUGH

Capable of holding a whopping 2,200 lbs. of equipment, this rack provides maximum strength, durability, and application flexibility. Plus its doors and side panels are lockable to keep equipment secure.

ORGANIZATION + CUSTOMIZATION

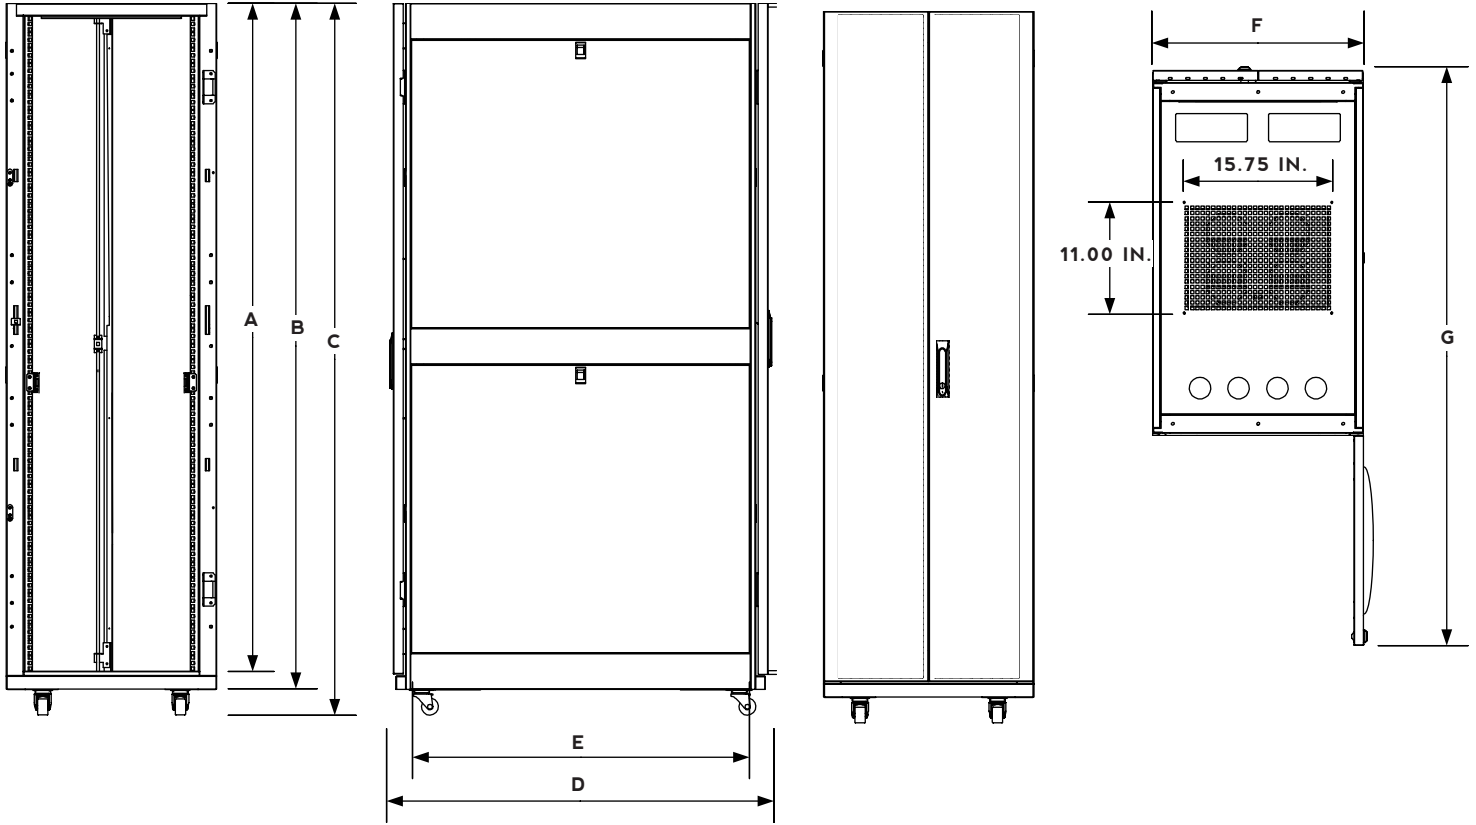

Integrated vertical wire management keeps cables neat and tidy, while 30" of depth provides plenty of space for adding shelves, drawers and other accessories. The result is an impeccably organized rack, from top to bottom.

WARRANTY:

Strong™ Racks and Rack Accessories have a Lifetime Limited Warranty. This warranty includes parts and labor repairs on all components found to be defective in material or workmanship under normal conditions of use. This warranty shall not apply to products which have been abused, modified or disassembled. Products to be repaired under this warranty must be returned to SnapAV or a designated service center with prior notification and an assigned return authorization number (RA).
